- And more...

TIGER ARMY

Why Tally?

Tally is the most famous and widely known accounting software in India for over two decades. Starting with the MS-DOS based edition tally has seen many changes and is now a complete ERP package in itself.

TIGER ARMY

Advantage

You can also use remote desktop version in which you can access tally from a remote location but your server should be switched on for the whole time.

User-Friendly Interface

Affordability

Scalability

Local Tax Compliance

Conclusion

Tally ERP 9 is a powerful tool for businesses, simplifying financial tasks and enabling better decision-making. A user-friendly choice that ensures compliance and boosts efficiency. A popular and versatile solution for success.

TIGER ARMY

What is a Company?

In Tally ERP 9, a "company" is like a digital folder that holds all the financial records and information for a particular business. It helps businesses keep their financial data organized and separate from other companies within the software.
